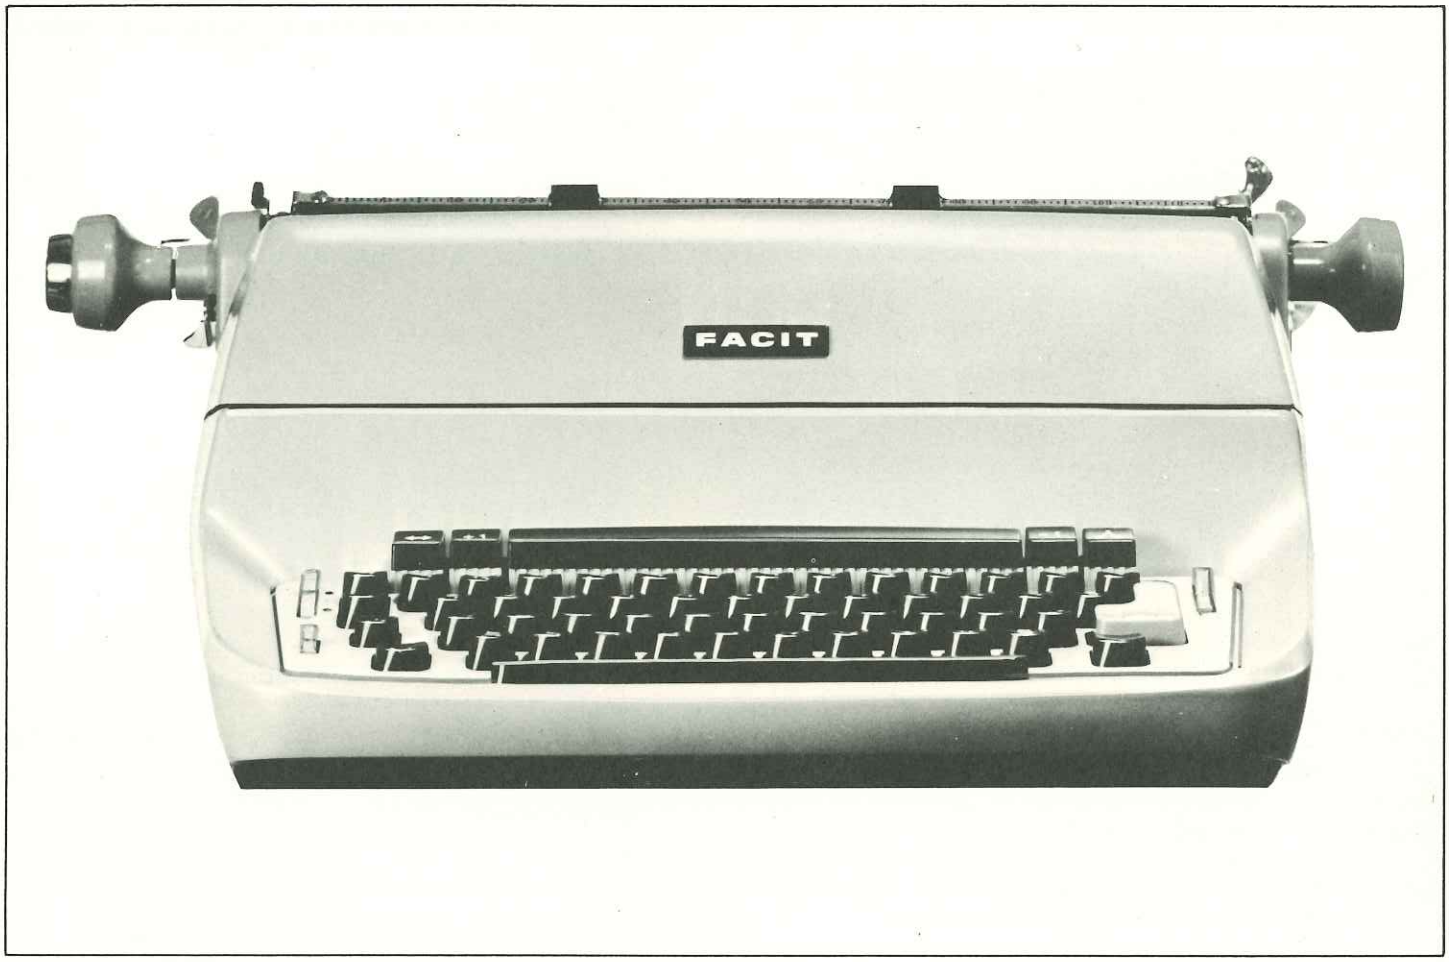
Facit Electric ET3

Item #47-9

Over-all dimensions: Height 10", Width 19", Depth 17"
Weight in lbs. Net 51, Shipping 65



Beneath the classic contours of the Facit Electric lies a triumph of engineering — a rugged and reliable mechanism with the kind of precision you can attain only with the finest steel.

The Facit Electric adds distinction to any decor . . . and adds pages of production to daily typing output.

You can pay more for an electric, but you cannot get more quality and features than a Facit gives you. As the price of office work soars, can you afford not to own the speed, dependability and durability of Facits?

Exclusive "Memory Tabulator" The Facit is the only electric typewriter with a pre-programmed tabulating system and a "memory" that remembers.

Actually, it is equipped with 2 tabulating systems, as are both the Manual and Portable Typewriters.

The first is the standard key-set tabulator which enables the typist to tab in the normal way to any position on the writing line. Tab stops can be added, changed or removed by depressing a key on the keyboard.

The second tabulating system is the Facit exclusive "memory tabulator", which is standard on all Facit typewriters.

Seven tab stops are pre-set at the factory to positions most frequently used in every day typing. These stops are permanently locked in the "memory" until changed by a Facit service representative. The number and location of stops can be varied according to preference.

Standard key-set tab stops can be used in conjunction with the pre-programmed stops. Or, if the typist wishes to use only the standard tabulating system, a convenient lever at the side of the carriage temporarily clears all pre-programmed stops. A touch of the same lever restores the "memory tabulator" system when desired.

Automatic tabulation. Just one light touch on the tabulator key automatically moves the carriage to its designated stop.

Repeat functions. The special repeat functions save a great deal of typing time and effort. The space bar, backspacer, and 5 symbols — hyphen, period, upper and lower case "X," and underscoring line — repeat when the typist holds down the key.

Facit Electric ET3 *continued*

Item #47-9

Consistent typing quality. The impact of type bars on the platen is always the same, though its force may be adjusted to taste. But the resistance of the keys to your touch is always feathery-light. As a result lettering is neat and even, whether you type a maximum number of copies or only a single copy on air-mail stationery.

Quiet running. No electrical interference. The A.C. motor runs quietly, with utmost reliability and long life. There is no interference with radio, radar or TV reception. Vibration and noise have been reduced to the absolute minimum by suspending the motor on rubber bushings.

Low, comfortable keyboard. Facit Electric's keyboard is of the same height as on ordinary manual typewriters. It offers a comfortable and restful working position without the need for extra arrangements.

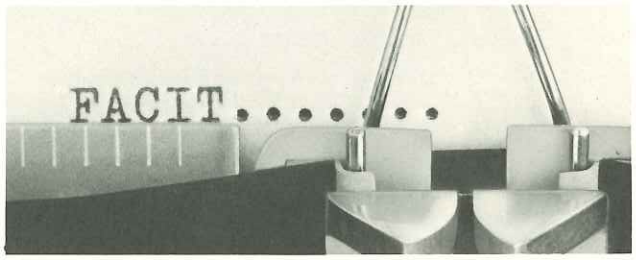
Safety motor. Motor runs indefinitely without damage to itself or to the typewriter. There is no cause for concern if the typewriter is inadvertently left running after use.

Foolproof. An electric typewriter has three functions which are mutually exclusive: carriage return, backspacing and tabulating. To prevent blockage, Facit Electric is specifically designed to permit use of only one of these three keys at a time.

Facit service . . . is available everywhere, from professionally trained servicemen. It is your assurance that machines will give top performance at all times, and adds greatly to the life of the typewriter.

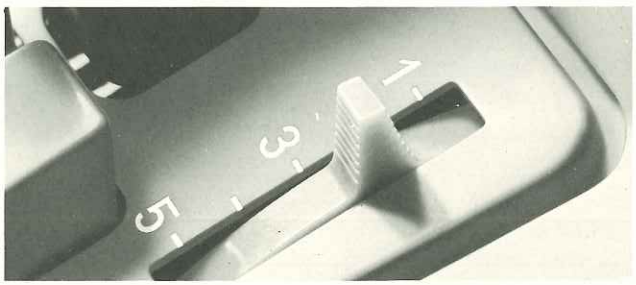
Type Styles. Fourteen different and individual type styles are available on the Facit Electric, for your personal or executive correspondence.

Low-positioned keyboard Facit Electric has a low keyboard to assure you a comfortable, relaxed working position.



6 repeat keys Much time is saved by endowing certain keys with repeat functions. On Facit Electric the backspacer, space bar and four other keys are repeat keys.

Automatic tabulation Just one light touch on the tabulator key automatically moves the carriage to its designated stop.



Effective copy control The impact of type bars on the platen is always the same, though its force may be adjusted to taste. But the resistance of the keys to your touch is always feathery-light. As a result lettering is neat and even, whether you type a maximum number of copies or only a single copy on airmail stationery.

Facit Manual T2

Item # 47-11
Over-all dimensions: Height 10", Width 17⅔", Depth15½"
Weight in lbs. Net 33, Shipping 40

Here is the nearest manual equivalent to an electric typewriter — a product of precision & craftsmanship. So perfectly balanced is the key mechanism that a feather-light touch is all that is ever required. Yet this steady and durable machine can stand up to heavy-handed usage as well. With proper upkeep, it should serve indefinitely — regardless of the work load. And it should provide easier, more fatigue-free typing than any other machine in its class. For office work, or for the professional writer — the Facit T2 is a distinguished typewriter for distinguished work.

- Exclusive dual tabulating system
- 45-key keyboard
- Low functional keyboard for restful operation
- Sound absorbing bottom plate
- Single and half spacing — five settings
- Erasure table, paper support, page-end indicator and touch selector
- Ball-bearing mounted carriage
- Carriage easily removed for maintenance
- Fast and easy ribbon changes
- Modern design and executive grey color

Trade-In Allowance Schedule

For typewriters, Item no. 47-19

DEDUCTIONS

Deduct 50% of allowance value on typewriters with broken bases and 25% of the allowance on typewriters with broken carriage frames or rails. Deduct 75% of the allowance on typewriters with broken bases and carriage frames.

Where a serial number has been removed, defaced or changed, the typewriter has no value. Typewriters damaged by water, fire or chemicals have no value.

Deduct $15.00 for 15" and wider carriages.
Deduct $ 7.50 for other than 10 or 12 pitch type styles.
Deduct $15.00 for single case type.

Any machine listed will be accepted regardless of deductions for a minimum of $5.00. Machines not listed have no allowance.

Parts for Facit Typewriters

Item 47-15

There will be a Parts Discount of 10% less than current commercial prices. These prices include delivery within the U.S.A. Prices do not include hand tools.

Repair and Maintenance Services

Item 47-16 (Work Performed in Contractor's Shop)

Cleaning, repairing and overhauling — actual labor time at $9.00 per hour, plus costs of necessary parts at 5% discount from contractor's list prices in effect at time of repair.

Item 47-17 (Work Performed In Government Office Where Typewriter Is Located)

For Description of Zones — see below	Zone 1	Zone 2	Zone 3
1. Less than first full hour (minimum charge)	$9.00	$12.00	$15.00
2. First full hour per repairman	9.00	12.00	15.00
3. Each additional full hour per repairman	9.00	12.00	15.00
4. Each additional ¼ hour or fraction thereof, after one or more full hours per repairman	2.25	3.00	3.75

5. Repair parts, when required in connection with cleaning, repairing and overhauling, will be furnished at 5% discount from contractor's list prices in effect at time of repair.

Zone 1 — The corporate limits of a city in which a Facit service station is located but not exceeding 15 mile radius.

Work will commence on a machine within 12 working hours after receipt of order within Zone 1.

Repair work guaranteed for 30 days.

Zone 1 — Within 15 miles radius from a Facit Service Station.

Zone 2 — Beyond 15 miles but within 25 miles radius from a Facit Service Station.

Zone 3 — Beyond 25 miles but within 50 miles radius from a Facit Service Station.

Item 47-18 (Schedule Of Charges For Maintenance Service Of Facit Electric Typewriters)

	Zone 1	Zone 2	Zone 3
Facit Electric Typewriters	$35.00	$40.00	$45.00

Tri-annual inspections will be made. Maintenance service includes all necessary repair parts (except electrical components and ribbons) and labor required to keep the equipment in good operating condition. No additional charge will be made for parts, time or travel expenses involved on repair calls. Maintenance agreements do not include replacement of electrical components, ribbons, cost of repairs due to accidents, fire, water or abuse (anticipated proportional costs for parts and labor — 80% labor, 20% parts).

Reduction Of Electric Shock Hazard

All cord sets are Underwriters' Laboratories approved.

Two-wire cord set — #506 right angle male plug one end and #163 female plug other end.

Three-wire cord set — #72 male plug one end and #139 female plug on other end. For such ordering offices as may require electric equipment with 3-wire and grounding conductor plug, it is available at no extra cost and is in accordance with Federal Specifications J-C-175.

All cord sets are made of rubber and use 18/2 and 18/3 SJ UL approved wire in their fabrication.
